

12 COLORFUL HOLIDAY DECORATING TIPS FROM ACE'S DESIGN EXPERTS

1. Paint an accent table ruby red with a high gloss sheen. Decorate it with gold accessories to make it pop.
2. Add a festive color to a small focal point wall. Clark+Kensington® Autumn Gourd 5018 is a modern play on red that works throughout the fall and winter holidays.
3. Revive old glass ornaments with modern patterns. Paint them with trellis, stripes, and fretwork designs. Display them in a large glass jar as a centerpiece.
4. Paint a lacquer red or emerald green on the inside of a secretary, chest of drawers, bookcase or other old piece of furniture.
5. Hang a collection of birdhouses on tree branches under a porch. Paint them in holiday themed colors like red and white. Alternate houses that are painted solid red with white roofs with those that are painted solid white with red roofs.
6. Paint your front door with a bright cheery holiday color like emerald green. Use a high gloss sheen for glamour and vibrancy.
7. Add interest to an overlooked area – the inside of your entry doors! Paint them with a shot of color or even a high gloss black. Hang a wreath as an added visual element.
8. Fill large glass bowls with silver ornaments and fresh fruit such as bright red or green apples. Display them on credenzas, consoles and dining tables.
9. Add an ombre effect to make ordinary ball ornaments more interesting. Mist the top or bottom of your ornament with a colorful spray paint, allowing the new color to be solid at the top, and fade half-way down.
10. Spray paint a lamp shade to bring in color somewhere you typically do not see it. Use traditional holiday colors. Or, try the more modern spin of a color such as emerald for your green or coral instead of red.
11. Add a fun and festive color to an old mirror by painting the frame. Hang it in or near your entryway for a bright first impression.
12. Spray paint galvanized metal buckets with a bright cheery red. Place them on your front and back porch and fill them with greens and natural holly branches.
